7. Database Description and Contents:

The Purchasing System Client is a client-server application that allows users to prepare desired purchase requisitions based on the specified agency object codes with the associated payment and fund codes from execution budget. Requested items are checked for appropriate cash availability, and the proper personnel with their approval limits are available for selection as approvers.

Note: The database contains data fields to which public access may be restricted. Specific information relating to data fields, record/table layouts, and known restrictions to public access is maintained by the department. Please contact the point of contact noted in Item 4, or Kathy Graham, DGIF IT Service Manager of Administration Services at (804) 367-0272, for further information. Please refer to Frequency of Update if Date of Last Update is blank. See Database Description and Contents above for more information.
